**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**1.00 Reporting entity**

**1.01 Company profile**

Energypac Power Generation PLC (hereinafter referred to as "EPGPLC"/"the Company") is a public limited company incorporated in Bangladesh on July 15, 1995 under the Companies Act 1994. The address of the Company's registered office is 79, Shahid Tajuddin Ahmed Sharani, Tejgaon I/A, Dhaka-1208, Bangladesh. EPGL was initially registered as a private limited company and subsequently converted into a public limited company on December 27, 2011.

EPGPLC was previously known as Energypac Power Generation Ltd (EPGL), which by the approval of General Shareholders through EGM, held on 14th June 2023, changed its name to Energypac Power Generation PLC. This name change was pursuant to the provisions of Section 11(Ka) of the Companies Act, 1994 and the Company has a statutory obligation to incorporate the suffix 'PLC' at the end of its name. Accordingly, the change of the Company's name from "Energypac Power Generation Limited" to "Energypac Power Generation PLC." was approved as per Section 11(6) of the Companies Act, 1994.

BSEC permitted EPGPLC for conducting bidding on their 734th Commission Meeting held on 6th August, 2020. Bidding conducted on 21st September 2020 to 24th September 2020 round the clock. Cut off price fixed at Tk. 35 and after 10% discount at Tk. 31 for general investor. BSEC gave final consent on IPO in their 745th Commission Meeting held on 21st October 2020. Public Subscription (General Investors) began from 7th December, 2020 to 13th December, 2020. IPO lottery held on 3rd January 2021. The Company got listed in DSE & CSE on 19th January 2021 and trading started on the same day.

**1.02 Nature of business**

The Company is engaged as major supplier of base load and standby gas and diesel generators and provides rent, solar panel, accessories and turnkey solutions, independent power plant, operation and maintenance of power plant, transmission and distribution, CNG refueling station and conversion kits, importing and marketing JAC automobiles, machinery and materials, spare parts, installation and service, cylinder manufacturing plant and LPG refueling station across Bangladesh.

**2.00 Basis of preparation**

**2.01 Statement of compliance**

The Financial Reporting Act, 2015 (FRA) was enacted in 2015. The Financial Reporting Council (FRC) under the FRA has been formed in 2017 but the Financial Reporting Standards (FRS) under this Council is yet to be issued for public interest entities such as listed entities. Other than this, Orders imposed by the FRC has been duly complied with from time to time.

The accounting policies used are consistent with those used in the Annual Financial Statements. These financial Statements have been prepared in accordance with International Financial Reporting Standards (IFRS), the Companies Act 1994, the Securities and Exchange Rules 2020, relevant guidelines issued by the Bangladesh Securities and Exchange Commission, Financial Reporting Act, 2015 and other applicable laws in Bangladesh.

**International Financial Reporting Standards (IFRS) comprise:**

- a) International Financial Reporting Standards;
- b) International Accounting Standards; and
- c) IFRIC and SIC Interpretations

The Company also complies with amongst others, the following laws and regulations:

The Income Tax Act 2023

The Value Added Tax and Supplementary duty Act 2012

The Value Added Tax and Supplementary duty Rules 2016

|      | 30       | IFRS-16       | Leases                                                          |

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**2.03 Basis of measurement**

These financial statements have been prepared on historical cost basis except for the following items in the statement of financial position:

- (a) Land is measured at fair value under revaluation model.
- (b) Inventories are measured at lower of cost and net realizable value.
- (c) Investment in shares of listed companies is measured at fair value under the asset designated at fair value through profit or loss.

**2.04 Functional & presentational currency**

These financial statements are presented in Bangladesh Taka (BDT or Tk) which is the Company's functional currency. All financial information presented in BDT or Tk has been rounded off to the nearest BDT or Tk except when otherwise indicated.

**2.05 Use of estimates and judgments**

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Estimates and assumptions are reviewed on an ongoing basis.

The estimates and underlying assumptions are based on past experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognized in the financial statements are stated in the following notes:

Note 4: Depreciation of property, plant and equipment  
Note 8: Impairment assessment of trade receivables  
Note 17: Revaluation of Property, plant and equipment  
Note 22.02: Provision for income tax  
Note 22.03: Provision for gratuity  
Note 32.02: Deferred tax liabilities  
Note 43: Contingent liability and commitment

**2.06 Reporting period**

The reporting period of the Company covers the period from 1st July to 30th June and is followed consistently.

**2.07 Comparatives and reclassification**

Comparative information has been disclosed for the financial year 2025-2026 for all numeric information in the financial statements and also the narrative and descriptive information where it is relevant for understanding of the current year's financial statements. Figures for the year 2024-2025 have been rearranged wherever considered necessary to ensure comparability with the current year.

**2.08 Going concern**

During the reporting year, the Company applied for restructuring of all loan facilities and reduction of interest rates in line with the directives applicable for industrial borrowers. Pursuant to this application, the Company attended a formal hearing arranged by Bangladesh Bank and placed its financial position, repayment strategy, and business sustainability plans before the authority.

Based on the discussions held and the ongoing review process, management expects a favourable outcome which will support improved liquidity, reduced finance costs, and an extended repayment schedule. The Company continues to making operational profit across its LPG distribution, cylinder manufacturing, generator assembly, commercial vehicle assembly, and steel fabrication segments, generating sufficient operating cash flows to meet its obligations.

The Company has adequate resources to continue its operation for foreseeable future and hence, the financial statements have been prepared on going concern basis. As per management's assessment there are no materials uncertainties related to events or conditions which may cast significant doubt upon the Company's ability to continue as a going concern.

However, due to the current global economic conditions, marked by slower-than-expected recovery post-pandemic, geopolitical tensions such as the Russia-Ukraine conflict, increasing fuel prices, and persistent high inflation, have significantly impacted the Company's business performance and profitability. Additionally, the economic challenges specific to Bangladesh, including currency depreciation, supply chain disruptions, and rising import costs due to depleted foreign reserves have further adversely impacted resulting in lower profit and higher borrowing.

**3.00 Significant accounting policies**

The accounting policies set out below have been applied consistently to all periods presented in these Financial statements.

**3.01 Measurement of fair values**

The Company has an established control framework with respect to the measurement of fair values. Management has the overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

Management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
  - Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
  - Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).
- If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**Property, plant and equipment**

The fair value of items of property, plant and equipment has been determined based on the depreciated replacement cost method and net realizable value method as applicable. For revalued portion of assets a third party independent valuer has been assigned to determine fair value based on market information.

**Equity and debt securities**

Fair values of tradable equity and debt securities are determined by reference to their quoted closing price in active market at the reporting date which are categorized under "Level 1" of the fair value hierarchy.

**3.02 Property, plant and equipment**

**3.02.01 Recognition and measurement**

The cost of an item of property, plant and equipment comprises its purchase price, import duty and non-refundable taxes (after deducting trade discount and rebates) and any cost directly attributable to the acquisition of the assets. The cost of self-constructed / installed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the intended manner and the cost of dismantling and removing the items and restoring the site on which they are located.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the property, plant and equipment and is recognized under other income/expenses in profit or loss.

**3.02.02 Subsequent costs**

The cost of replacing or upgrading part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss.

**3.02.03 Depreciation**

Depreciation is charged on all items of property, plant and equipment (excluding land) on straight line method. Depreciation charge begins when the asset is available for use and ceases at the earlier of the date that the asset is classified as held for sale or the date the asset is derecognised. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. The rates of depreciation vary according to the estimated useful lives of the class of property, plant and equipment, as follows:

| Particulars                    | Percentages (Annual) | Useful Life (Years) |
|--------------------------------|----------------------|---------------------|
| Office Building                | 4%-6.67%             | 15-25               |
| Factory Building               | 4%-10%               | 10-25               |
| Furniture & Fixtures           | 12.5%-20%            | 5-8                 |
| Renovations                    | 10%-20%              | 5-10                |
| Equipment                      | 10%-20%              | 5-10                |
| Loose Tools                    | 20%                  | 5                   |
| Server & Network               | 20%-25%              | 4-5                 |
| Motor Vehicles                 | 10%-20%              | 5-10                |
| Heavy Equipment                | 5%-10%               | 10-20               |
| Rental Fleet                   | 10%                  | 10                  |
| Cylinders                      | 5%-10%               | 10-20               |
| Intangible Assets              | 10%-25%              | 4-10                |
| Motor Vehicles-Sales           | 10%-20%              | 5-10                |
| Civil Work Investment          | 4%-10%               | 10-25               |
| Factory - Motor Vehicle        | 10%-20%              | 5-10                |
| Factory - Equipment            | 10%-20%              | 5-10                |
| Factory - Furniture & Fixtures | 12.5%-20%            | 5-8                 |

Depreciation methods, useful lives and residual values are reassessed at each the reporting date and adjusted if appropriate.

**3.02.04 Retirements and disposals**

An asset is derecognized on disposal or when no future economic benefits are expected from its use and subsequent disposal. Gain or loss arising from the retirement or disposal of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized as gain or loss from disposal of asset under other income in the statement of comprehensive income.

**3.02.05 Capital work in progress**

Capital work-in-progress represents the cost incurred for acquisition and/or construction of items of property, plant and equipment that are not ready for use till reporting date which is measured at cost.

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**3.02.06 Revaluation of property, plant and equipment**

The Company applies revaluation model to entire class of freehold land. A revaluation is carried out when there is a substantial difference between the fair value and the carrying amount of the property and is undertaken by professionally qualified valuers. The Company reviews its assets when deemed appropriate considering reasonable interval of years/time. Increases in the carrying amount on revaluation is recognized in other comprehensive income and accumulated in equity in the revaluation reserve unless it reverses a previous revaluation decrease relating to the same asset, which was previously recognized as an expense. In these circumstances the increase is recognized as income to the extent of the previous write-down. Decrease in the carrying amount on revaluation that offset previous increases of the same individual assets are charged against revaluation reserve directly in equity. All other decreases are recognized in statement of profit or loss and other comprehensive income.

The difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost is transferred from revaluation surplus to retained earnings as shown Statement of Changes in Equity as per IAS-16: Property, Plant and Equipment.

**3.03 Borrowing costs**

Borrowing costs that are not directly attributable to the acquisition, construction or production of qualifying assets are recognized in profit or loss using effective interest method. Bank charges are also considered as part of borrowing costs due to the fact that substantial part of these charges originates from borrowing activities of the Company.

**3.04 Intangible assets**

**3.04.01 Recognition and measurement**

Intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and accumulated impairment loss, if any. Intangible assets are recognized when all the conditions for recognition as per IAS 38: Intangible Assets are met. The cost of an intangible asset comprises its purchase price, import duties and non-refundable taxes and any directly attributable cost of preparing the asset for its intended use. Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognized in the profit or loss as incurred.

Development activities involve a plan or design for the production of new and substantially improved products and processes. Development expenditures, on an individual project, are recognized as an intangible asset when the Company can demonstrate all of the following:

- (a) the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (b) its intention to complete the intangible asset and use or sell it;
- (c) its ability to use or sell the intangible asset;
- (d) how the intangible asset will generate probable future economic benefits. Among other things, the entity can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset;
- (e) the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- (f) its ability to measure reliably the expenditure attributable to the intangible asset during its development.

Other development expenditures are recognized in profit or loss as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period. Following initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is placed in service. It is amortized over the period of expected future economic benefits. During the period of development, the asset is tested for impairment annually.

Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss in the year in which the expenditure is incurred.

**3.04.02 Subsequent costs**

Subsequent costs are capitalized only when they increase the future economic benefits embodied in the specific asset to which they relate. All other costs are recognized in profit or loss as incurred.

**3.04.03 Amortization**

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates.

The Company uses straight line method to amortize intangible asset. The estimated depreciation rate for the current and comparative years is 10% per annum.

**3.05 Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**3.05.01 Financial assets**

The Company initially recognizes receivables on the date that they are originated. All other financial assets are recognized initially on the date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred.

The classification and measurement of financial assets is based on the basis of both:

- a. the entity's business model for managing the financial assets; and
- b. the contractual cash flow characteristics of the financial assets.

Three measurement classifications for financial assets have been established: amortized cost, fair value through other comprehensive income and fair value through profit and loss. These measurement classifications align with three business models available under IFRS 9:

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

- Hold to Collect – Financial assets held with the objective to collect contractual cash flows
- Asset to Collect and Sell – Financial assets held with the objective to collect and sell contractual cash flows
- Other – Financial assets held for trading or assets that do not meet the criteria for either 'Hold to collect' or 'Hold to collect and sell'. Financial assets designated as trading are held with an objective to sell the assets in the short term.

For purposes of determining the measurement classification, financial assets under the 'Hold to Collect' and 'Hold to Collect and Sell' business model require an assessment to determine whether the cash flows are solely payments of principal and interest (SPPI). Basic lending arrangements with limited volatility in cash flows typically have contractual cash flows that are SPPI; however, other factors should be considered in making this determination, such as whether interest payments provide only a consideration for the passage of time associated with time value of money.

Financial assets under a Hold to Collect business model, with contractual cash flows that are SPPI, are classified and measured at amortized cost. Financial assets under a Hold to Collect and Sell business model, with contractual cash flows that are SPPI, are classified and measured at fair value through other comprehensive income (FVOCI).

Financial assets that have contractual cash flows that are not SPPI, are designated as trading or do not fit the business model criteria for hold to collect and old to collect and sell are measured at fair value through profit and loss (FVTPL). Equity instruments are always measured at FVTPL unless an irrevocable option is elected at initial recognition to present fair value changes in OCI. Fair value changes recorded in OCI for equity instruments are not recycled to profit and loss. The Company did not elect the option to present fair value changes through OCI for equity instruments.

Based on the above the basis of recognition and measurement are as follows:

**I. Amortized cost**

The asset is measured at the amount recognized at initial recognition minus principal repayments, plus or minus the cumulative amortization of any difference between that initial amount and the maturity amount, and any loss allowance. Interest income is calculated using the effective interest method and is recognized in profit and loss. Changes in fair value are recognized in profit and loss when the asset is derecognized or reclassified.

**II. At fair value through profit or loss:**

A financial asset is classified as at fair value through profit or loss if it is classified as held for trading or is designated as such on initial recognition. Financial assets are designated as at fair value through profit or loss if the Company manages such investment and makes purchase or sale decisions based on their fair value in accordance with the Company's documented risk management or investment strategy. Attributable transactions costs are recognized in profit and loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein which take into account and dividend income are recognized in profit or loss.

**III. At fair value through other comprehensive income**

The asset is measured at fair value and changes in value are transferred through other comprehensive income.

Financial assets currently being used by the Company are as follows:

**a) Trade and other receivables**

Trade, and other receivables represent the amounts due from customers for delivering goods or rendering services. Trade and other receivables are initially recognized at cost which is the fair value of the consideration given in return. After initial recognition these are carried at amortized cost less impairment losses due to uncollectibility of any amount so recognized.

**b) Investment in listed securities and FDR**

Investment in listed securities is measured at fair value on portfolio basis. Changes between closing market price at 30 June 2025 and the respective cost price on portfolio basis has been considered as impairment and accordingly charged to profit. The impairment provision on unrealized loss has been netted off against cost price. Investments in fixed deposits with banks and financial institutions have been recognized at amortized costs.

**c) Cash and cash equivalents**

Cash and cash equivalents comprise cash in hand, cash at bank including short notice deposits and fixed deposits having maturity of three months or less which are available for use by the Company without any restriction. Bank overdraft that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose only of the statement of cash flows.

**d) Investment in subsidiaries**

Investment in subsidiaries are recognized initially at cost plus any directly attributable transaction costs. Subsequent to initial recognition, investment in subsidiaries are measured at cost less impairment loss, if any.

**3.05.02 Financial liabilities**

The Company initially recognizes financial liabilities on the date that is originated. The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expired.

The Company classifies non-derivative financial liabilities into the liabilities for expenses category. Such financial liabilities are recognized initially at fair value less directly attributable transaction cost. Subsequent to initial recognition, these financial liabilities are measured at amortized cost.

**a) Trade and other payables**

Trade and other payables represent the amounts due to suppliers for receiving goods or services. Trade and other payables are initially recognized at cost which is the fair value of the consideration received. After initial recognition these are carried at amortized cost.

**b) Borrowings**

Interest-bearing borrowings include both short-term and long-term bank loan. Interest bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, these are stated at amortized cost using the effective interest method.

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**3.06 Equity instruments**

Ordinary shares are classified as equity. In line with IAS 32 requirement, incremental costs directly attributable to the issue of ordinary shares are recognized as reduction in equity through charging directly to retained earnings instead of profit or loss. Paid-up share capital represents total amount contributed by the shareholders and bonus shares issued by the Company.

**3.07 Impairment**

**i) Financial assets**

The Company recognize a loss allowance for expected credit losses on a financial asset that is measured at amortised cost or measured at fair value through other comprehensive income. These financial assets are assessed at each reporting date to determine impairment.

The Company measures impairment allowance for financial asset at an amount equal to the lifetime expected credit losses if the credit risk on that financial asset has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition impairment is assessed at an amount equal to 12 month expected credit losses.

The Company considers evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets are individually assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that has been incurred but not yet individually identified. Assets that are not individually significant are collectively assessed for impairment. Collective assessment is carried out by Companying together assets with similar risk characteristics.

In assessing collective impairment, the Company uses historical information on the timing of recoveries and the amount of loss incurred, and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

***Trade and other receivables***

An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through profit or loss.

**(ii) Non-financial assets**

At each reporting date, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. For an asset that does not generate significantly independent cash inflows, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. Carrying amount of the asset is reduced to its recoverable amount by recognizing an impairment loss, if and only if, the recoverable amount of the asset is less than its carrying amount. Impairment loss is recognized immediately in profit or loss. As at 30 June 2025, the assessment of indicators of impairment revealed that impairment testing was not required for the Company.

For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

**3.08 Inventories**

Inventories except material in transit and work in progress are measured at the lower of cost and net realizable value. The cost of inventories is based on the weighted average principle, and includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their present location and condition. In the case of work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is defined as the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

**3.09 Transactions with related parties**

These represent balance amounts due to /from sister concerns which are derived from short term loan, sale/purchase of goods/services from time to time. Sales and purchase of goods/services are made on arm's length basis. These balances are unsecured but considered good and realizable. Transactions within the controlled entities of the Company are eliminated in full.

**3.10 Advances, deposits and prepayments**

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deductions, adjustments or charges to other account heads such as property, plant and equipment, inventory or expenses.

Deposits are measured at payment value without any adjustment for time value.

Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to profit or loss on accrual basis.

**3.11 Share capital**

Paid up share capital represents total amount contributed by the shareholders and bonus shares issued by the Company to the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding up of the Company, ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation.

**3.12 Employee benefit schemes**

The Company operates a recognized provident fund for all eligible permanent employees of the Company. The eligibility is determined according to the terms and conditions set forth in the respective deeds. This qualifies as defined contribution plan.

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**3.12.01 Defined contribution plan (provident fund)**

Defined contribution plan is a post employment benefit plan under which the Company provides benefits to one or more employees. The recognized Employees Provident Fund is considered as defined contribution plan as it meets the recognition criteria specified for this purpose. All permanent employees contribute 5 percent of their basic salary to the provident fund and the Company also makes equal contribution to the fund. These are administered by the Board of Trustees.

Contribution to defined contribution plan is recognized as an expense when an employee has rendered services to the Company. The legal and constructive obligation is limited to the amount it agrees to contribute to the fund.

**3.12.02 Worker's profit participation fund**

The Company has made a provision for worker's profit participation fund (WPPF) for the financial year. The Company provides 5% of its net profit before tax after charging such expenses as Worker's profit participation in accordance with Bangladesh Labor (Amendment) act 2013.

**3.12.03 Defined benefit plan (gratuity fund)**

The Company maintains an unrecognized gratuity for all its eligible permanent employees. As per Company policy, all employees are eligible for the gratuity after successfully completion of 5 years of services without any dispute. The employee will be eligible equivalent to one month of basic salary (last basic) for each year, if the employee completes at least 5 years of service persistently. This policy has been adopted on 1st January 2014. No Actuarial Valuation was made for the non funded benefit. The management of the Company estimates that the provision is sufficient enough to meet the current liability at any point of time.

**3.13 Provisions**

A provision is recognized in the financial statements if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation.

**3.14 Warranty**

Warranty given to the customers is same as warranty received from the principal. When claims against warranty in connection with any sale of products or operational activity in relation to any service rendered, are raised, the Company meets the warranty claims and subsequently raises invoices to the principal for the claims. A provision for warranty is recognized when claim against warranty is not justified by the principal.

**3.15 Revenues**

The Company has initially applied IFRS 15 Revenue from contract with customers from 1 January 2019. The Company recognizes as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principal, IFRS 15 establishes a five-step model as follows:

- Identify the contracts with customer;
- Identify the performance obligation in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognize revenue when (or as) the entity satisfies a performance obligation.

Considering the five step model, the Company recognizes revenue when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods are considered as transferred when (or as) the customer contains control of that goods. Revenue from sale of goods is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates and Value Added Tax (VAT).

**Liquefied Petroleum Gas (LPG)**

LPG filled cylinders are sold to enlisted distributors by the Company. A customer account is maintained in this regard for a particular distributor. At first, a distributor deposits money to a particular bank account of EPGPLC. After that he sends the scan/ image copy of deposit slip to a particular viber Company. Sales people of the respective area help him in this regard, if required. After getting the scan/ image copy of the deposit slip, respective accounts people of EPGPLC confirm the deposit of the amount by checking it in the statement of the particular bank. If the deposit is available, deposit entry is given in the System. The deposit is recorded as advance received from the distributor.

**Trade sales**

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, discount and VAT. Revenue is recognized at the time of raising of sales invoice, when significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable and the amount of revenue and associated cost can be measured reliably. Transfer of risk and rewards occurs for the sale of goods, when the product is delivered to the distributors and customers along with dispatch documents and invoices.

**Hire purchase sales**

Under hire purchase sales system, purchaser pays the price of the goods in monthly instalments. Under this system the goods are delivered to the purchaser at the time of agreement before the payment of instalments but the title on the goods is transferred after the payment of all instalments as per the hire purchase sales agreement. If there is a default in the payment of any of the instalments, the Company will take away the goods from the possession of the purchaser without refunding him any amount received earlier in the form of various instalments.

Revenue from hire purchase sales is recognized when goods are delivered to the customers and is measured at cash price under total asset value method.

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**Rental and services revenue**

Revenue from rent of generator is recognized on time basis for which the generator is rented. Revenue generated from overhauling services of engines, regular maintenance services are recognized in the statement of comprehensive income when the services are completed.

**Project sales**

Project sales represents installation and commissioning of generator and CNG station and setting up of bus bar, professional lighting and renewable energy. Revenue from service project is recognized on the basis of completed contract method if the contract period is less than one year.

**CNG station revenue**

Revenue from CNG station is recognized on the basis of meter reading when CNG is filled in the cylinder of vehicles and measured at standard price set by the Government.

**Operation and maintenance revenue**

Fixed fees are recognized on time basis as per terms of operation and maintenance contract. Direct costs in connection with operation and maintenance contracts have been accounted for in line with IFRS 15.

**Commission revenue**

When the Company acts in the capacity of an agent, rather than as the principal in a transaction, commission revenue is recognized when goods are delivered to customers by the principal.

**Engineering, Procurement and Construction (EPC) contract revenue**

Revenue and costs from EPC contracts are recognized according to the stage of completion of the contract based on measurement of costs incurred to date as a proportion of total costs of contract when the outcome of the contract can be estimated reliably.

**3.16 Finance income and expenses**

Finance income comprises interest income on bank and NBFI accounts. Interest income is recognized on accrual basis. Finance expense comprises interest expense on short term loan, overdraft and long term loan.

Finance expense comprises interest expense on overdraft, LTR, term loan and finance lease. Finance expense related to EPC contract is charged to the cost of EPC contract. All other finance expenses are recognized in the statement of profit or loss and comprehensive income.

**3.17 Bad debts**

**Provision for bad debts**

As stated earlier under financial instruments, impairment provision for doubtful debts is made for accounts receivables based on analyzing the recoverability of the amount from the concerned parties and expected credit losses. The Company has applied simplified approach as per IFRS 9 and measured provision based on lifetime expected credit losses.

**Bad debts written off**

The Company writes off bad debts when the debts are considered to be non-recoverable on consideration of the status of individual debtors.

**3.18 Income tax**

Income tax expense comprises current and deferred tax. Income tax expense is recognized in the statement of Profit or Loss and Other Comprehensive Income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

**Current tax**

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The effective rate of income tax is considered as 20% as per Income Tax Act 2023.

**Deferred tax**

Deferred tax has been recognized in accordance with International Accounting Standard (IAS) 12. Deferred tax is provided for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amount used for taxation purpose. Deferred tax is determined at the effective income tax rate prevailing at the reporting date.

**3.19 Foreign currency**

Transactions in foreign currencies are translated to Taka at the foreign exchange rates prevailing on the date of transaction. All monetary assets and liabilities denominated in foreign currencies at reporting date are retranslated to Taka at the rates of exchange prevailing on that date. Resulting exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognized in the statement of comprehensive income as per IAS 21: The Effects of Changes in Foreign Exchange Rates.

**3.20 Earnings per share**

The Company presents basic and diluted (when dilution is applicable) earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company with the weighted average number of ordinary shares outstanding during the period, adjusted for the effect of change in number of shares for bonus issue and share split as per IAS 33. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares. However, dilution of EPS is not applicable for these financial statements as there was no dilutive potential ordinary shares during the relevant periods.

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**3.21 Determination and presentation of operating segment**

An operating segment is a component of the Company that engages in business activities from which it may earn revenue and incur expenses, including revenues and expenses that relate to transactions with the Company's other components, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions about resources allocated to the segments and assess its performance and for which discrete financial information is available.

The Company determines and presents operating segments based on business segments and internal reporting structure i.e. information provided internally to the Company's Board of Directors (BOD), which is the Company's Chief Operating Decision Maker. Information about operating segment has been presented in note 38.

**3.22 Contingencies**

**3.22.01 Contingent liability**

Contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liability should not be recognized in the financial statements, but may require disclosure. A provision should be recognized in the period in which the recognition criteria of provision have been met.

**3.22.02 Contingent asset**

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset must not be recognized. Only when the realization of the related economic benefits is virtually certain should recognition take place provided that it can be measured reliably because, at that point, the asset is no longer contingent.

**3.23 Statement of cash flows**

Statement of cash flows has been prepared as per IAS 7: Statement of Cash Flows using Direct Method as per the requirement of Securities and Exchange Rules 1987. Bank overdrafts forming part of the day to day cash operation and management of the Company/Company are netted off with cash and cash equivalents for use in statement of cash flows.

**3.24 Leases**

IFRS 16 was issued in January 2016 and it replaces IAS 17 Leases. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under IAS 17.

As per IFRS 16, a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset, for a period, in exchange for consideration. The distinction between operating and finance leases is eliminated for lessees under IFRS 16, and a new lease asset (representing the right to use the leased item for the lease term) and lease liability (representing the obligation to pay rentals) are recognized for all leases. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets and short-term leases. At the commencement date of a lease, a lessee is recognized a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessee is required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

**3.25 Revaluation surplus**

These represents the difference between the book value and the revalued amount of land. Revaluation is done with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. The fair value of land is determined from market-based evidence by appraisal that is undertaken by professionally qualified valuers. In accordance with IAS 16 revaluation reserve relating to the land is transferred to retained earnings when it is disposed.

**3.26 COVID 19**

The adverse impact of COVID 19 which started in previous financial year continued to affect the business of the Company during the current financial period. To contain the spread of subsequent waves of COVID 19, Government has taken various measures including extended lock down, closure of business, restriction in people movement, social distancing etc. As a result of these measures as well as prevailing global situation, all business and economic activities are adversely affected which also impacted the Company. Impact from these COVID 19 related events that has occurred are already reflected in these financial statements. However, due to the inherent uncertainty associated with such matter it is not possible to reasonably assessed and quantify any potential impact of COVID 19 related matters on the Company's future operation and financial results.

**3.27 Government grants**

Government grants are assistance by government in the form of transfers of resources to an entity in return for past or future compliance with certain conditions relating to the operating activities of the entity. They exclude those forms of government assistance which cannot reasonably have a value placed upon them and transactions with government which cannot be distinguished from the normal trading transactions of the entity.

For substantial loss incurred by business during COVID 19 Period, the Government of Bangladesh has agreed to bear a portion of interest expenses on the loan taken by the Company from various Banks under Government stimulus package.

**3.28 Off setting**

The Company reports separately both assets and liabilities, and income and expenses, unless required by an applicable accounting standard or offsetting reflects the substance of the transaction and such offsetting is permitted by applicable accounting standard. Cash receipts and payments on behalf of customers when the cash flows reflect the activities of the customer rather than those of the entity and cash receipts and payments for items in which the turnover is quick, the amounts are large, and the maturities are short, are presented net in the statement of cash flows.

**Energypac Power Generation PLC.**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**3.29 Events after the reporting period**

Events after the reporting period that provide additional information about the Company's position at the reporting date are reflected in the financial statements. Material events after the reporting period that are not adjusting events are disclosed by way of note.

**3.30 Standards issued but not yet effective**

A number of new standards and amendments to standards are effective for annual periods beginning on or after 1 July 2020 and earlier application is permitted. However, the Company has not early applied the following new standards in preparing these financial statements.

**IFRS 17 Insurance contract**

IFRS 17 was issued in May 2017 and applies to annual reporting periods beginning on or after 1 January 2021. IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. The objective of IFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. Based on preliminary assessment this standard is not expected to have significant impact on the Company and the Company's financial statements.

| <b>398,172,829</b> | <b>398,172,829</b> |

During financial year 2022-2023 EPGPLC transferred 1,112,000 shares to Sonargaon Leather & Rixin Cloth Industries Ltd. (SLRCIL) in consideration of the sum of Tk. 310,000,000.

As on 30 June 2022, the total value of investment including advance for equity stood at Tk. 1,809,900,667, which after the share offload (effective on 15th June 2023) stands at Tk. 38,251,909 (excluding advance for equity). The remaining investment in the form of advance against equity to Energypac Power Venture Limited (EPVL) an amount of TK. 147.2 cr is reclassified as a part of restatement under the head of "Other receivable" (Note 9). This was caused by the share offload to SLRCIL and a tri-party agreement has been made to get back such advance equity 147.2 cr from the acquiree.

**8.00 Trade receivables**

**Receivables (unsecured) - considered good**

Local accounts receivable

**Energypac Power Generation PLC**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

| Amount in BDT |           |
|---------------|-----------|
| 31-Mar-26     | 30-Jun-25 |

As EPGPLC have transferred the controlling portion and majority of its holding in Energypac Power Venture Limited (EPVL) to Sonargaon Leather & Rixin Cloth Industries (SLRCIL), SLRCIL have decided to take up the liability for the equity advance amount in EPVL, amounting to 147.2 Cr. There has also been a tri-party agreement among EPGPLC, EPVL & SLRCIL regarding the equity advance receivable from SLRCIL. The Equity advance in EPVL shares was formerly as equity advance (Note 7), this has been re-classified as "Other Receivables", in Note 9 and shown under "Sonargaon Leather & Rixin Industries Limited" in Note 9.01.

EPGPLC has charged interest @12% on outstanding balance of intercompany current account

The Company has undertaken the above transactions with its subsidiaries as well as some other related parties as temporary arrangement. All these balances are payable on demand. In accordance with Bangladesh Securities and Exchange Commission notification No. SEC/CMMRRCD/2006-159/Admin/02-10 dated 2 September 2006 management has taken various compliance steps on this matter.

To comply with Bangladesh Securities and Exchange Commission notification No. SEC/CMMRRCD/2006-159/Admin/02-10 dated 2 September 2006 the Company will obtain necessary approval in the Board/AGM and wherever possible will also minimize use of inter company balances.

The Board of Directors of EPGPLC, in its Extraordinary General Meeting (EGM) held on June 14, 2023, via a virtual platform, approved the sale of 322 decimals of land situated at Beldi Mouza, Rupganj, Narayanganj, with a carrying value of Tk. 81,249,110. In accordance with the decision, the land was classified as "Asset Held for Sale" and measured at fair value less costs to sell, with no impairment losses recognized as of the reporting date.

In line with the management's commitment to complete the sale within one year, 274.68 decimals of the said land were sold during FY: 24-25 through a transfer of power of attorney, generating proceeds of Tk. 106,300,000.

The Board of Directors of EPGPLC, in its 103rd Board of Meeting held on November 22, 2025, also decided to sale of 16.50 decimal of land situated at 430, Energy Point, Tejgaon New I/A, Dhaka) with a carrying value of Tk. 330,000,000

The Management is committed to sell the Land within one year and there has been an active programme to locate a buyer, which qualifies according to Para 8 of IFRS 5: Non-current asset held for sale.

The above amount of security deposits mainly represents advances received from dealers and customers against supply of cylinders by the Company. Upon return of the cylinders in usual condition by the dealers/customers the Company would return the amount. As the expectation is such return would not take place in foreseeable future the balance is shown in non-current liability.

The above balance represents provision for income tax in relation to years for which final assessments are pending. Corresponding income tax payments against those pending assessment years are shown in note 11.01. Management regularly assess the status of pending tax matters and based on advice of its external tax consultant satisfy that the above provision is adequate to cover all pending tax demands once all the appeal process are completed and final demands are settled. Refer below for the status of various tax assessments.

| Income Year | Assessment Year | Status                                                |
|-------------|-----------------|-------------------------------------------------------|
| 2022-2023   | 2023-2024       | Income tax return and the assessment is under process |
| 2023-2024   | 2024-2025       | Income tax return and the assessment is under process |

**22.03 Provision for gratuity**

|                                               |                    |                    |
|-----------------------------------------------|--------------------|--------------------|
| Balance at 1 July                             | 117,266,650        | 84,079,696         |
| Add: Provision during the period              | -                  | 33,186,954         |
| Less: Adjustment/settlement during the period | -                  | -                  |

| IFRS 16, Paragraph 5 introduces the two optional exemptions, one for short-term leases (with a lease term of 12 months or less) and another for leases where the underlying asset is of low value. The total lease expense for the period relating to low-value asset leases amounts to approximately BDT 3.86 million (38.64 lakhs). |                           |                           |                                  |                                  |

For the income year 2025-2026 (corresponding to the assessment year 2026-2027), the income tax rate applicable for a company is 20%  
As per the Finance Act 2020, for all such company which are not publicly traded, if they transfer at least 20% of its paid-up capital through IPO, then that company shall receive 10% rebate on the applicable tax rate for that particular year related to the transfer. Although the year is not defined but as the Finance Act is applicable for tax assessment year the same has been used to determine the year of transfer.

**Energypac Power Generation PLC**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**38.00 Operating segment report**

Energypac Power Generation PLC comprises the following four main business segments. As per IFRS 8, An operating segment is a component of an entity has the following main characteristics (Para 3):

- (a) that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity),
- (b) whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and
- (c) for which discrete financial information is available.

IFRS 8, Para 13 also mentions the Quantitative thresholds that defines an operating segment:

- (a) Its reported revenue, including both sales to external customers and intersegment sales or transfers, is 10% or more of the combined revenue, internal and external, of all operating segments.
- (b) The absolute amount of its reported profit or loss is 10 percent or more of the greater, in absolute amount, of (i) the combined reported profit of all operating segments that did not report a loss and (ii) the combined reported loss of all operating segments that reported a loss.
- (c) Its assets are 10 per cent or more of the combined assets of all operating segments.

EPGPLC identifies four main business segments based upon their nature of products and services, which complies with the key criterion mentioned in IFRS 8. Reported revenues does not include revenues from transactions with other operating segments.

General information (as per IFRS 8, Para 22) regarding Operating segments are mentioned below:

**Division of LPG**

LPG bottling plant is the plant where LPG is filled into bottles (cylinders) for storage and distribution among various LPG distributors. Primary Operations in a Bottling plant are main line activities, directly associated with filling of LPG cylinders. LPG revenue reported below also included revenue from CNG station (Malibagh Polwel G-Gas fuel station). CNG station revenue for the period ended 31 March, 2026 amounted to BDT 131,636,588 and in prior period amounted to BDT 90,928,504

**Division of Motor Vehicles (MVD)**

Principal activities of Motor Vehicles Division (MVD) segment are importing and marketing JAC automobiles, construction machinery and materials, spare parts and service in Bangladesh.

**Power & Energy (PED)**

Principal activities of Power Generation Division (PGD) segment are to supply base load and standby gas, diesel generators and provide rent, turnkey solutions, operation and maintenance of power plant, spare parts, installation and service in Bangladesh and overseas.

**Division of BMD**

Principal activities of Building Material Division (BMD) segment are construct pre-engineered building & steelpac light building.

**Energypac Power Generation PLC**  
**Notes to the Financial Statements**  
For the quarter and nine-month period ended 31 March 2026

**38.01** Operating profit represents our measure of segment profit or loss as it is the primary measure used for the purpose of making decisions about allocating resources and assessing performance of segments. Segment wise Profit/Loss is given below:

| July-25<br>to<br>March-26             | Business Segments    |                     |                      |                      |          | Amount in BDT          |

**Energypac Power Generation PLC**  
**Notes to the Financial Statements**  
**For the quarter and nine-month period ended 31 March 2026**

**40.00 Financial risk management**

The management has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has exposure to the following risks from its use of financial instruments.

- Credit risk
- Liquidity risk
- Market risk

**40.01 Credit risk**

Credit risk is the risk of financial loss to the Company if a client or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade receivables and other receivables.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. In monitoring credit risk, debtors are grouped according to their risk profile, i.e. their legal status, financial condition etc. Accounts receivable are mainly related to local account receivable, receivable from BPDB and commission receivables. The Company's exposure to credit risk on accounts receivables is mainly influenced by the individual payment characteristics of local customers. The Company has established invoice and collection department to minimize credit risk involving collection of local receivables.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

**a) Exposure to credit risk**

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

|                                 | <b>Amount in BDT</b> |                      |
|---------------------------------|----------------------|----------------------|
|                                 | <b>31-Mar-26</b>     | <b>30-Jun-25</b>     |

**c) Impairment losses**

Impairment losses on the above receivables were recognized as per the Company policy mentioned in Note 3.07

**40.02 Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on timeline of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date. Moreover, the Company seeks to maintain short term lines of credit with scheduled commercial banks to ensure payment of obligations in the event that there is insufficient cash to make the required payment. The requirement is determined in advance through cash flows projections and credit lines facilities with banks are negotiated accordingly.

**Energypac Power Generation PLC**  
**Notes to the Financial Statements**

**40.03 Market risk**

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Company's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

**a) Currency risk**

The Company is exposed to currency risk on certain revenues and purchases such as service revenue and purchase of generator and pick up van. Majority of the company's foreign currency transactions are denominated in USD and EURO. The Company maintains a USD and EURO bank account where all receipts are deposited and all corresponding payments are made.

**i) Exposure to currency risk**

The Company's exposure to foreign currency risk was as follows based on notional amounts (in Taka):

|                                                 | <b>Mar-26</b>        |               | <b>Jun-25</b>        |               |
|-------------------------------------------------|----------------------|---------------|----------------------|---------------|
|                                                 | <b>USD</b>           | <b>EUR</b>    | <b>USD</b>           | <b>EUR</b>    |

The Company has foreign exchange gain of TK -16,057,602.77/- for the year ended 30 June 2025 and it was gain of TK 9,050,205.51/- in prior year FY 2023-2024.

The following significant exchange rates have been applied:

|            | <b>Exchange rate as at</b> |                     |
|------------|----------------------------|---------------------|
|            | <b>31 March 2026</b>       | <b>30 June 2025</b> |
|            | <b>Taka</b>                | <b>Taka</b>         |
| US Dollar  | 113.84-120.68              | 113.84-120.68       |
| EURO (EUR) | 118.67-141.47              | 118.67-141.47       |

**ii) Foreign exchange rate sensitivity analysis for foreign currency expenditures**

A change of 10 basis points in foreign currencies would have increased/(decreased) equity and profit or loss of the Company by the amount shown below. The analysis assumes that all other variables, in particular interest rates, remain constant.

**Energypac Power Generation PLC**  
**Notes to the Financial Statements**  
For the quarter and nine-month period ended 31 March 2026

|                                 | Profit or loss |                | Equity         |                |

**b) Interest rate risk**

Interest rate risk is the risk that arises due to changes in interest rates on borrowings. The Company is not significantly exposed to fluctuation in interest rates as it has neither floating interest rate bearing financial liabilities nor entered into any type of derivative instrument in order to hedge interest rate risk as at the reporting date.

**Profile**

At the reporting date, the interest rate profile of the Company's interest bearing financial instruments was:

|                               | Amount in BDT  |                |
|-------------------------------|----------------|----------------|
|                               | 31-Mar-26      | 30-Jun-25      |
| <b>Fixed rate instruments</b> |                |                |
| <b>Financial assets</b>       |                |                |

**Interest rates used for determining amortized cost**

The interest rates used to discount estimated cash flows, when applicable were as follows:

|                      | Mar-26    | Jun-25    |
|----------------------|-----------|-----------|
| Investment in FDR    | 6%-10%    | 6%-10%    |
| Term loan            | 11.5%-14% | 11.5%-14% |
| Bank overdraft       | 11.5%-14% | 11.5%-14% |
| Short term bank loan | 11.5%-14% | 11.5%-14% |

**41.00 Capital management**

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of total equity attributable to the equity holders of the Company. The Board of Directors monitors the level of capital as well as the level of dividend to the ordinary shareholders. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend, return capital to shareholders, issue new shares or obtain long-term debt.

The Company is not subject to any externally imposed capital requirement.
